1 TVA
1 SAT Phone

Additional resources needed for operations: N/A

Safety Issues: N/A

Contractor Issues: N/A

Work conducted during operational period:

OSC, in conjunction with the USCG, conducted oversight activities at the Phillips 66 Bayway Refinery. Removal of oil from the reservoir areas continues as well as remedial work in the cemetery area. The RP

intends to stand down the Incident Command Post within the next two days and finish with the removal of free product from all areas. This will then begin the transition from the active recovery phase to the passive recovery phase.

As of November 13, 2012 at 1000, the RP has estimated 146 barrels of oil have been recovered from the ERB discharge and one barrel of oil has been recovered from the Tank 310 discharge.

As of November 13, 2012 at 1000, the RP had the following resources on site:

| | |
|--------------------------|----------------------|
| 150 contractor personnel | 50 light stands with |
| 16 RP personnel | 32 skimmers |
| 19,800 feet of boom | 12 frac tanks |
| 2 cranes | 100 roll offs |
| 25 vacuum trucks | |

Wildlife Impacts as of November 13, 2012 at 1000:

252 oiled birds had been captured, 114 had been cleaned, 102 were dead on arrival and 36 were euthanized at the facility. The majority of the birds were Canada Geese.

6 deer had been captured, 5 were dead on arrival.

38 oiled turtles were captured, 36 were cleaned, and 2 were dead on arrival.

1 oiled domestic cat was found dead.

OSC also visited Veterans Park in Bayonne, NJ to recon some of the previously identified points for recovery. No points were verified. OSC will return tomorrow to complete a more thorough assessment.

Next steps: OSC will continue oversight activities at the Phillips 66 Bayway Refinery as needed.
